DIRECTOR'S MESSAGE

As the Director, I am delighted to take this opportunity to highlight the invaluable wealth of electronic resources that we have diligently curated in the Central Library of the institute for your intellectual growth and exploration.

The e-resources have revolutionized how we access, utilize, and engage with knowledge. They provide 24/7 access to an extensive collection of e-books, journals, articles, databases, multimedia content, cutting-edge information, and enhanced research capabilities.

A highly motivated and professionally qualified team of librarians is available to assist patrons in navigating the digital landscape and unlocking the wealth of knowledge it holds.

I wish you all the best, and remember, "Knowledge knows no bounds when accessed through the power of e-resources."

Prof. Narayana Prasad Padhy

Financial performance of
53,515 companies

About ProwessIQ

ProwessIQ, or Prowess for Interactive Querying, is a powerful internet-based application for querying CMIE's database on performances of listed and unlisted companies. It is simple and easy to use.

ProwessIQ provides charting tools and well-formatted reports on performances of companies. Reports provide financial data including analytical data.

What is ProwessIQ?

ProwessIQ is an interactive querying system to find companies from the Prowess database. It consists of a client software that provides an interface to construct and submit queries over the internet to the Prowess database and receive answers to the queries from the database.

ProwessIQ therefore is all about interactive querying of the Prowess database.

All queries in ProwessIQ aim at finding companies that match a given set of search conditions. The ProwessIQ interface therefore consists of a large number of query construction facilities, display of query results in spreadsheets and the further use of the results of queries.

The Prowess database consists of the financial performance of Indian companies. The database contains information on all listed companies and a larger set of unlisted companies. The database is built from the audited Annual Reports of companies and information submitted to the Ministry of Company Affairs; and in the case of listed companies, the database also includes company dealings with stock exchanges and prices of securities listed on the major stock
